

Electric Counterbalance Trucks Capacity 1600 – 2000 kg E 16, E 18, E 20

SERIES 386

Safety

Linde ProtectorFrame: The protective overhead guard and its supporting frame together form a strong and completely enclosed protective zone providing optimum structural integrity, safety and protection for the operator. The top mounted tilt cylinders provide seamless, smooth control of the tilt movements for excellent load stability in all operating conditions. This unique design also enables slimmer mast profiles to be fitted for outstanding visibility.

Performance

One would expect a high performance truck to have a high performance traction system – and that is exactly what the Linde compact drive axle and lift system delivers. Powerful motors, maintenance-free brakes and intelligent electronic control form an impressive power pack to deliver the highest levels of efficiency and productivity.

Comfort

Consistently high levels of performance and efficiency for extended periods is only possible if the operator is comfortable. The ergonomic layout of all the controls, the adjustability the armrest and seat, Linde Load Control, and twin accelerator pedals provide the best possible intuitive interface between the truck and the operator.

Reliability

An electric fork lift truck depends on reliable electronic systems. The Linde electronic control system provides a high level of reliability because of its dual circuit monitoring system and the sealed aluminium housing which provides total protection for the electronics from the ingress of dust and moisture. For additional adaptability a simple programming system enables the performance parameters to be adjusted to meet individual application requirements.

Productivity

Effective in operation, efficient in reducing costs: the unique Linde energy management system ensures intelligent and economical consumption of energy. Energy can also be obtained quickly utilising the optional built-in charging unit or one of the five simple and rapid battery changing methods. The result: more uptime and increased productivity.

Linde Material Handling

Linde

Features

Linde clearview mast design

- with top mounted tilt cylinders for seamless load control and stability
- Excellent view of load and surroundings through the robust yet slim mast profiles
- Nominal capacity retained to maximum lift heights
- High residual capacities in all applications
- Exceptionally stable

Linde combi axle

- Unique Linde combi axle offers total flexibility
- Combi axle gives this four wheeled truck the maneuverability of a three wheeler
- Excellent four wheeled stability and safety on hard uneven surfaces
- The perfect flexible combination for inside/outside working

Linde twin accelerator control

- Seamless, rapid reversing without repositioning the feet
- Short pedal travel
- Fatigue-free working
- Increased throughput and performance

Linde Load Control

- Safe and seamless load handling with millimetre accuracy
- Effortless fingertip control of all mast functions
- Joystick controls integrated into the armrest

Economical AC drive

- Two powerful AC drive motors integrated in the front axle
- Seamless acceleration and variable torque characteristics
- Excellent structural integrity and stability
- Extremely quiet in operation

Linde operator's compartment

- Ergonomically designed for efficient, fatigue-free working
- Spacious operator's compartment with generous floor plate area
- Cushioned comfort – mast and drive axle are isolated from the chassis and cab by a unique resilient suspension system that absorbs shock loadings

Linde compact drive axle

- Twin drive design with high performance Linde AC technology
- Integrated AC lift motor
- Optimum energy efficiency
- Maintenance-free oil-bath vane brake
- Electronic components housed in sealed unit for complete protection

Linde energy management

- Optimised energy consumption
- Accurate battery condition indicator
- Simple horizontal or vertical battery changing options
- Optional built-in high frequency charger for convenience and flexibility
- Record of battery usage

The manufacturer reserves the right to alter specifications without notice. All dimensions are subject to manufacturing tolerances.

Standard and optional equipment

Standard equipment

Truck

Hydrostatic power steering
Linde twin accelerator pedals for all vehicle movements
Four wheeled configuration
Dual axis fingertip joystick controls (Linde Load Control) integrated into the adjustable arm rest
2 x 5.0kW maintenance free AC drive motors
11 kW AC maintenance free lift motor
Proportional reduction of travel speed when cornering (Linde Driver Assistant)
Seamless electronic control of all traction and hydraulic movements
Standard chassis suitable for working in ISO containers with appropriate mast
Hydraulically adjustable full suspension PVC operator's seat with armrest

Comprehensive digital instrument display

Superelastic tyres

Generous storage facilities for writing materials and miscellaneous items

Battery capacity for flat version (height h6=1,970 mm)

E 16 P = 24 V/575 Ah, E 20 PL = 24 V/690 Ah

Raised version for greater battery capacity (height h6 = 2,130 mm)

E 16 PH = 48 V/700 Ah, E 18 PH = 48 V/700 Ah,

E 20 PH = 48 V/700 Ah, E 20 PHL = 48 V/840 Ah

Mast

Clearview standard mast 3,110 mm lift

Fork length 1,000 mm

Fork carriage width 1,040 mm

Options

Single pedal accelerator with forward/reverse selector in the armrest

Standard mast lifts up to 5,610 mm

Duplex mast lifts (full free lift) up to 3,825 mm

Triplex mast lifts (full free lift) up to 6,075 mm

Integrated sideshift

Integrated fork spreader

Tilt cylinder protection

Load guard

Single and double additional hydraulics for attachments

Alternative fork lengths

Alternative fork carriage widths

Polycarbonate top screen on overhead guard

Front and rear screens, wipers and top screen

Full cab with hinged doors

Overhead guard sun blind

Heating (with pollen protection filter)

Radio with cassette player

Fabric covered comfort seat

Super-comfort seat with air suspension, heater and backrest extension

Swivelling seat

Integrated charger unit, 2-phase and 3-phase versions, optionally with electrolytic recirculation

Individual hydraulic control joysticks

Scanner terminal docking port

Truck lighting/flashing amber beacon/working lamps

Driving mirror

Full road lighting

Audible reversing alarm

Clipboard

Cold store protection

Alternative colour schemes

Linde Fleet Management (LFM)

Alternative tyre types
